

GAMES, MAGIC and MYSTERY

Maths Shows for Year 9s and 10s

I didn't expect to enjoy it,
but it was amazing.

Summer Shows Programme 2020

maths
INSPIRATION

GAMES, MAGIC and MYSTERY

The Greenwood Theatre, London
55 Weston Street, London, SE1 3RA
(A two minute walk from London Bridge station)

Thursday 25th June 2020

Morning show 10am–12pm
Afternoon show 1–3pm

Tickets £12 (inc VAT) – teachers **FREE**.

Join Matt Parker, Zoe Griffiths and Ben Sparks for two hours of mathematical surprises at London's Greenwood Theatre. In this highly interactive show, in which the audience decides what comes next, your students will discover a new side to maths that will enrich their understanding, and give them plenty to talk and laugh about too. And there will even be a chance to win prizes.

For more suggestions on how to make the most of this event visit our **TEACHER PAGE**:

WHAT TEACHERS SAID ABOUT PREVIOUS SHOWS . . .

"Brilliant - Perfectly pitched!"
ASHFIELD SCHOOL

"The whole show was brilliant! I got back in time to teach the last lesson of the day and I was really buzzing." **OUTWOOD ACADEMY, BARNSELY**

"Seeing maths outside the classroom was invaluable!"
WALES HIGH SCHOOL

"Students really enjoyed the games, and the participation was excellent."
WATH COMPREHENSIVE

Matt Parker is known as the "stand-up mathematician" and is the only person to hold the prestigious title of London Mathematical Society Popular Lecturer while simultaneously having a sold-out comedy show at the Edinburgh Festival Fringe. Matt is always keen to mix his two passions of mathematics and stand-up as well as presenting TV and radio shows. In 2019 his second book, *Humble Pi*, became the first ever maths book to be No.1 in The Sunday Times bestsellers (just ahead of Michelle Obama's autobiography).

Zoe Griffiths is a mathematician who travels the UK and internationally giving talks and workshops in schools, at science festivals, teacher conferences and comedy nights. Zoe has given talks at the Cheltenham Science Festival, in the Royal Institution world-famous lecture theatre and has performed mathematical comedy at Robin Ince's variety show *Nine Lessons and Carols for Curious People*.

Ben Sparks is a mathematician, a musician, and a speaker. He gives talks and workshops around the world on the beauty and magic of mathematics, and often performs songs with his guitar as part of the show. He's based at the University of Bath and also works with the Advanced Maths Support Programme around the UK. He's a big fan of imaginary numbers and Geogebra, and if his face is familiar, you might have seen him on YouTube's *Numberphile* channel.

BOOKING

To provisionally book seats visit our website, at www.mathsinspiration.com/booking. You are provisionally booked once we email you back, at which time we will give you the deadline for when you'll need to confirm your numbers and make your payment. We encourage you to pay by BACS, though we also accept cheque payments.

For full terms and conditions and more details on our events and speakers as well as tips for teachers, please visit our website.
